Wireless Wifi Solutions

## About Us

Founded in 2011, DENSIS TELECOM PVT LTD began with a dedicated core team and a bold vision to revolutionize the field of wireless communication. Specializing in the development and design of cutting-edge broadband wireless solutions, we cater to both outdoor and specialized indoor applications. Our expertise lies in utilizing advanced technologies such as TDD and TDMA-based Polling OFDM, along with MIMO 1x1, 2x2, and 3x3, ensuring our clients have the flexibility to deploy solutions that meet both their current and future needs.

Over the years, DENSIS TELECOM has successfully deployed over 9,000 RF links and Base Stations, along with more than 6,000 Wi-Fi systems across South India. Guided by our core philosophy of maximizing customer satisfaction, we have established a strong and recognized presence throughout the region.

## ALL-IN-ONE Telecom Solutions

At DENSIS TELECOM PVT LTD, we offer a comprehensive range of telecommunication services, delivering seamless and hassle-free solutions. Our expertise spans across RF services—including LOS feasibility, installation, commissioning, and maintenance—3 Pole Tower supply, erection, and maintenance, Wireless Broadband Solutions, Intranet Solutions, Link Planning, Budgeting, Network Planning, and Network Maintenance. With years of experience serving businesses of all sizes, we empower professionals to make their mark and rise to the top.

## Skilled Team

Our team is composed of individuals with diverse backgrounds and a wealth of experience in the telecommunications industry. We possess the knowledge and skills to manage every aspect of your telecommunication needs, from expert services and troubleshooting to the maintenance of various communication media and more.
